

The right fit for every presbyopic patient

ContinuVu™ - Concentric design

Emerging Presbyope - Younger than 50 years

FEATURES:

- +1.75D add or less
- Posterior surface zone
- Patient needs maximum visual acuity at all distances

FITTING TIP: MUST CENTER WELL

BENEFITS:

- True simultaneous visual acuity
- Easy transition from spherical GP lens
- No spectacle blur
- Simple to fit

ContinuVu Plus™ - Double concentric design

Middle Presbyope - 50-58 years old

FEATURES:

- +1.75D to +2.25D add or less
- Patient needs maximum visual acuity at multiple distances

FITTING TIP: DISTANCE ZONE IS BASED ON PUPIL SIZE

BENEFITS:

- Excellent intermediate visual acuity
- Easy transition from ContinuVu
- No add limitations
- Simple to fit

ReadRite™ - Crescent design

Mature Presbyope - Older than 58 years

FEATURES:

- +2.25D add or more
- Patient needs maximum reading and driving visual acuity

FITTING TIP: LOWER LID POSITION IS CRITICAL

BENEFITS:

- Defined distance/reading visual acuity
- True custom parameters
- Simple to fit

All **Essilor** contact lenses are available in Bausch & Lomb **Boston**® materials.

- Excellent wetting characteristics and deposit resistance
